

Consignment Agreement For WUW Members

The Hoppe Urban Wood Lab Store is proud to partner with Wisconsin Urban Wood Members and offer retail locations to sell urban wood. 195 27th St, Caledonia, WI 53108 or 1813 S. 73rd St. West Allis WI

- Wisconsin Urban Wood Producers will receive 70% of every sale, while The Hoppe Urban Wood Lab Store (UWL) will receive 30%. This applies to wood that is already kiln dried and skip planed prior to our receiving the wood.
- Finished craftsman pieces such as tables, benches and other unique crafts made out of urban wood will be accepted and sold under the same 70%, 30% arrangement.
- Accounts will be reconciled monthly and checks mailed to WUW producers promptly.
- All wood must be properly kiln dried and have gone through a heat sterilization process.
- UWL desires mostly processed wood, but rough cut wood will be accepted on a limited basis. If a WUW producer desires their wood to be processed by UWL, a processing fee shall be deducted from your consignment fee. Terms can be worked out with the UWL manager. UWL has a 24" planer, straight line machine, and 40" wide belt sander.
- Pricing will use our standard pricing model, or you have the ability to set a minimum sale price.
- We will mark wood from each producer prior to displaying for tracking, and each board will receive a QR scanner tag with the products information embedded on them.
- Wood needs to be packaged so that it can be fork-lifted out of your vehicle/trailer. If we need to unload by hand, a \$75 per man hour rate will apply.
- Most loads shall be dropped off at our Caledonia store, while smaller loads may be able to be dropped off at our West Allis location after discussion with our UWL store manager.
- The Hoppe Urban Wood Lab Store reserves the right to not accept loads. Communication with the Store Manager is critical to the success of your product selling. **You must contact us before bringing a load of wood.** Make sure to find out what species, cuts, and characteristics are in high demand. Unique species, and cuts are always encouraged. Store Manager may reach out to you requesting certain types of wood.
- After 6-12 months on the shelf, UWL reserves the right to pull the inventory and ask you to pick it up. If it's not picked up within a reasonable amount of time (as agreed with the UWL Store Manager) it becomes property of the UWL.

I have read and understand the agreement as presented and will adhere to all terms.
